AEROSPACE MANUFACTURING

SOAR TO SUCCESS IN THE TVA REGION

The seven-state TVA region offers a prime location for aerospace research, manufacturing, assembly and services. A robust system of 83 technical colleges and universities, along with seven airframe and power plant (A&P) schools, can deliver the skills needed for your workforce.

TVA PROVIDES COMPETITIVE RATES, WORLD-CLASS RELIABILITY AND EXPANDING CAPACITY

- TVA has approximately 37,000 MW of owned power generation encompassing a diverse generation mix from hydro, nuclear, fossil, and renewable power.
- The TVA region encompasses a seven-state footprint in the southeastern United States, including 10 interstate highways, 12 commercial/international airports, and multiple freight transportation options via air, rail, and port.
- TVA is one of the nation's largest suppliers of public power with a 99.999 percent transmission reliability since 2000.
- TVA serves as the transmission system reliability coordinator for neighboring utilities covering parts of 11 states.

THE REGION IS HOME TO:

- Marshall Space Flight Center
- Redstone Arsenal
- Fort Campbell
- Columbus Air Force Base
- Arnold Engineering Development Center
- Oak Ridge National Laboratories
- Memphis International Airport is the headquarters and hub for FedEx.
